The iron uptake repressor Fep1 in the fission yeast binds Fe-S cluster through conserved cysteines

Hyo-Jin Kim, Kang-Lok Lee, Kyoung-Dong Kim, Jung-Hye Roe

PII: S0006-291X(16)31192-5

DOI: [10.1016/j.bbrc.2016.07.070](https://doi.org/10.1016/j.bbrc.2016.07.070)

Reference: YBBRC 36147

To appear in: *Biochemical and Biophysical Research Communications*

Received Date: 8 July 2016

Accepted Date: 16 July 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
