## **Accepted Manuscript**

Identification of a PEAK1/ZEB1 signaling axis during TGFβ/fibronectin-induced EMT in breast cancer

Megan Agajanian, Farhana Runa, Jonathan A. Kelber

PII: S0006-291X(15)30461-7

DOI: 10.1016/j.bbrc.2015.08.071

Reference: YBBRC 34444

To appear in: Biochemical and Biophysical Research Communications

Received Date: 6 August 2015

Accepted Date: 16 August 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## ACCEPTED MANUSCRIPT

**Title:** Identification of a PEAK1/ZEB1 signaling axis during TGF $\beta$ /fibronectin-induced EMT in breast cancer

Authors: Megan Agajanian, Farhana Runa and Jonathan A. Kelber<sup>‡</sup>

**Affiliation:** Department of Biology, California State University Northridge, Northridge, CA 91330

Contact Information: <sup>‡</sup>Corresponding Author: <u>jonathan.kelber@csun.edu</u>
