This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

CHIP-MYTH: A novel interactive proteomics method for the assessment of agonist-dependent interactions of the human ß2-adrenergic receptor

Saranya Kittanakom[1,#], Miriam Barrios-Rodiles[2,#], Julia Petschnigg[1], Anthony Arnoldo[1], Victoria Wong[1], Max Kotlyar[3], Lawrence E. Heisler[1], Igor Jurisica[3, 4, 5], Jeffrey L. Wrana[2], Corey Nislow[6], Igor Stagljar[1, 7, 8*]
