This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Expression of microRNA-195 is transactivated by Sp1 but inhibited by histone deacetylase 3 in hepatocellular carcinoma cells

Running title: Expression regulation of miR-195 in HCC cells

Key words: miR-195, non-coding RNA, Sp1, HDAC3, hepatocellular carcinoma

Abbreviations: *ChIP, chromatin immunoprecipitation; EMSA, electrophoretic mobility shift assay; EST, expression sequence tag; miRNA, microRNA; HAT, histone acetyltransferase;*
