Ischemic brain extract increases SDF-1 expression in astrocytes through the CXCR2/miR-223/miR-27b pathway

Jin Hee Shin, Young Mi Park, Dong Hee Kim, Gyeong Joon Moon, Oh. Young Bang, Takbum Ohn, Hyeon Ho Kim

PII: S1874-9399(14)00186-2
DOI: doi: [10.1016/j.bbagr.2014.06.019](https://doi.org/10.1016/j.bbagr.2014.06.019)
Reference: BBAGRM 771

To appear in: *BBA - Gene Regulatory Mechanisms*

Received date: 15 April 2014
Revised date: 19 June 2014
Accepted date: 26 June 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Ischemic brain extract increases SDF-1 expression in astrocytes through the CXCR2/miR-223/miR-27b pathway
