

Accepted Manuscript

Transglutaminase type 2-dependent selective recruitment of proteins into exosomes under stressful cellular conditions

Laura Diaz-Hidalgo, Sara Altuntas, Federica Rossin, Manuela D'Eletto, Claudia Marsella, Maria Grazia Farrace, Laura Falasca, Manuela Antonioli, Gian Maria Fimia, Mauro Piacentini

PII: S0167-4889(16)30139-2
DOI: doi: [10.1016/j.bbamcr.2016.05.005](https://doi.org/10.1016/j.bbamcr.2016.05.005)
Reference: BBAMCR 17876

To appear in: *BBA - Molecular Cell Research*

Received date: 15 December 2015
Revised date: 2 May 2016
Accepted date: 6 May 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Transglutaminase type 2-dependent selective recruitment of proteins into exosomes
under stressful cellular conditions**

**Laura Diaz-Hidalgo¹, Sara Altuntas¹, Federica Rossin¹, Manuela D'Eletto¹,
Claudia Marsella², Maria Grazia Farrace¹, Laura Falasca², Manuela Antonioli¹,
Gian Maria Fimia^{2,3} and Mauro Piacentini^{1,2,*}.**
