

Accepted Manuscript

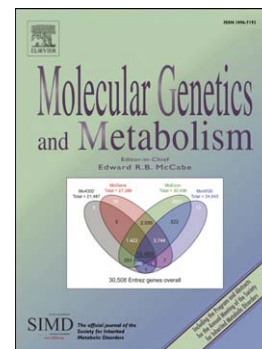

Mathematical Modeling of the Insulin Signal Transduction Pathway for Prediction of Insulin Sensitivity from Expression Data

Clark K. Ho, Lola Rahib, James C. Liao, Ganesh Sriram, Katrina M. Dipple

PII: S1096-7192(14)00348-5
DOI: doi: [10.1016/j.ymgme.2014.11.003](https://doi.org/10.1016/j.ymgme.2014.11.003)
Reference: YMGME 5836

To appear in: *Molecular Genetics and Metabolism*

Received date: 5 August 2014
Revised date: 29 October 2014
Accepted date: 2 November 2014

Please cite this article as: Ho, C.K., Rahib, L., Liao, J.C., Sriram, G. & Dipple, K.M., Mathematical Modeling of the Insulin Signal Transduction Pathway for Prediction of Insulin Sensitivity from Expression Data, *Molecular Genetics and Metabolism* (2014), doi: [10.1016/j.ymgme.2014.11.003](https://doi.org/10.1016/j.ymgme.2014.11.003)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Mathematical Modeling of the Insulin Signal Transduction Pathway for Prediction
of Insulin Sensitivity from Expression Data**
