Hypothesis

C-peptide evolution: generation from few structural restrictions of new bioactivities not yet necessarily functional

Michael Landreh, Hans Jörnvall

PII: S0014-5793(15)00011-3

DOI: <http://dx.doi.org/10.1016/j.febslet.2015.01.006>

Reference: FEBS 36988

To appear in: *FEBS Letters*

Received Date: 5 November 2014

Revised Date: 30 December 2014

Accepted Date: 7 January 2015

Please cite this article as: Landreh, M., Jörnvall, H., C-peptide evolution: generation from few structural restrictions of new bioactivities not yet necessarily functional, *FEBS Letters* (2015), doi: <http://dx.doi.org/10.1016/j.febslet.2015.01.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**C-peptide evolution: generation from few structural restrictions
of new bioactivities not yet necessarily functional**

Michael Landreh¹ and Hans Jörnvall*
