Title: New potential peptide therapeutics perturbing CK1 δ / α -tubulin interaction

Author: Marc Krüger, Hubert Kalbacher, Panagiotis L. Kastiris, Joachim Bischof, Holger Barth, Doris Henne-Bruns, Constantinos Vorgias, Stefania Sarno, Lorenzo A. Pinna, Uwe Knippschild

PII: S0304-3835(16)30171-9
DOI: <http://dx.doi.org/doi: 10.1016/j.canlet.2016.03.021>
Reference: CAN 12820

To appear in: *Cancer Letters*

Received date: 19-1-2016
Revised date: 11-3-2016
Accepted date: 11-3-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
