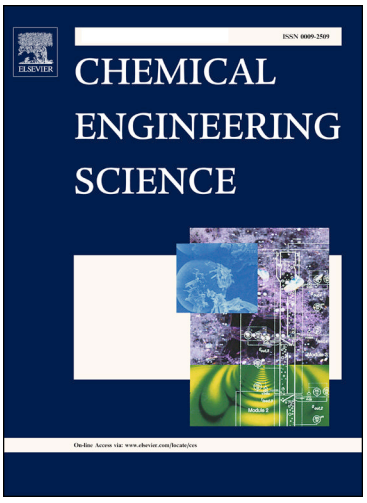
Accepted Manuscript



# An effective three-marker drag model via sub-grid modeling for turbulent fluidization

Li-Tao Zhu, Yuan-Xing Liu, Zheng-Hong Luo

PII: S0009-2509(18)30595-5
DOI: https://doi.org/10.1016/j.ces.2018.08.026
Reference: CES 14441

To appear in: *Chemical Engineering Science*

Received Date: 2 June 2018
Revised Date: 23 July 2018
Accepted Date: 12 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
