Classification of particle height in a hopper bin from limited discharge data using convolutional neural network models

Shaohua Chen, Laurent A. Baumes, Aytekin Gel, Manogna Adepu, Heather Emady, Yang Jiao

PII: S0032-5910(18)30685-5
DOI: doi:[10.1016/j.powtec.2018.08.048](https://doi.org/10.1016/j.powtec.2018.08.048)
Reference: PTEC 13633
To appear in: *Powder Technology*
Received date: 23 March 2018
Revised date: 13 August 2018
Accepted date: 15 August 2018

Please cite this article as: Shaohua Chen, Laurent A. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
