This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Discusses Basic Dempster-Shafer belief structure for modeling uncertainty
- Discusses entailment/inference of one belief structures from another
- Describes general belief structure with underlying uncertainty based on measure
- Extends concept of entailment to these general measure based belief structures
- Provides concept of containment between general belief structures
