Title: Interaction of poly(acrylic acid) and aluminum oxide particles in suspension: particle size effect

Authors: Armin Eraghi Kazzaz, Zahra Hosseinpour Feizi, Fangong Kong, Pedram Fatehi

PII: S0927-7757(18)30682-4
DOI: <https://doi.org/10.1016/j.colsurfa.2018.08.013>
Reference: COLSUA 22728

To appear in: *Colloids and Surfaces A: Physicochem. Eng. Aspects*

Received date: 26-5-2018
Revised date: 7-8-2018
Accepted date: 8-8-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Interaction of poly(acrylic acid) and aluminum oxide particles in suspension: particle size effect
