

## Accepted Manuscript

A novel iron ore pelletization for increased strength under ambient conditions

Sheila Devasahayam

PII: S2214-9937(18)30009-5  
DOI: doi:[10.1016/j.susmat.2018.e00069](https://doi.org/10.1016/j.susmat.2018.e00069)  
Article Number: e00069  
Reference: SUSMAT 69  
To appear in: *Sustainable Materials and Technologies*  
Received date: 16 January 2018  
Revised date: 13 April 2018  
Accepted date: 3 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A Novel Iron Ore Pelletization for Increased Strength Under Ambient  
Conditions**
