

## Accepted Manuscript

Enhancing thermoelectric performance of  $(\text{Cu}_{1-x}\text{Ag}_x)_2\text{Se}$  via CuAgSe secondary phase and porous design

Weidi Liu, Xiaolei Shi, Raza Moshwan, Min Hong, Lei Yang, Zhi-Gang Chen, Jin Zou

PII: S2214-9937(18)30133-7  
DOI: doi:[10.1016/j.susmat.2018.e00076](https://doi.org/10.1016/j.susmat.2018.e00076)  
Article Number: e00076  
Reference: SUSMAT 76  
To appear in: *Sustainable Materials and Technologies*  
Received date: 21 June 2018  
Revised date: 18 August 2018  
Accepted date: 18 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Enhancing Thermoelectric performance of $(\text{Cu}_{1-x}\text{Ag}_x)_2\text{Se}$ via CuAgSe secondary phase and porous design
