

## Accepted Manuscript

Title: Effects of dietary sodium selenite and organic selenium sources on immune and inflammatory responses and selenium deposition in growing pigs

Authors: Michaela Falk, Aksel Bernhoft, Tore Framstad, Brit Salbu, Helene Wisløff, Trond M. Kortner, Anja B. Kristoffersen, Marianne Oropeza-Moe

PII: S0946-672X(17)30964-1  
DOI: <https://doi.org/10.1016/j.jtemb.2018.03.003>  
Reference: JTEMB 26082

To appear in:

Received date: 1-12-2017  
Revised date: 21-2-2018  
Accepted date: 5-3-2018

Please cite this article as: Falk Michaela, Bernhoft Aksel, Framstad Tore, Salbu Brit, Wisløff Helene, Kortner Trond M, Kristoffersen Anja B, Oropeza-Moe Marianne. Effects of dietary sodium selenite and organic selenium sources on immune and inflammatory responses and selenium deposition in growing pigs. *Journal of Trace Elements in Medicine and Biology* <https://doi.org/10.1016/j.jtemb.2018.03.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Research paper

“Effects of dietary sodium selenite and organic selenium sources on immune and inflammatory responses and selenium deposition in growing pigs.”
