The influence of anisotropic surface stresses and bulk stresses on defect thermodynamics in LiCoO<sub>2</sub> nanoparticles

Peter Stein, Ashkan Moradabadi, Manuel Diehm, Bai-Xiang Xu, Karsten Albe

PII: S1359-6454(18)30582-2

DOI: [10.1016/j.actamat.2018.07.046](https://doi.org/10.1016/j.actamat.2018.07.046)

Reference: AM 14723

To appear in: *Acta Materialia*

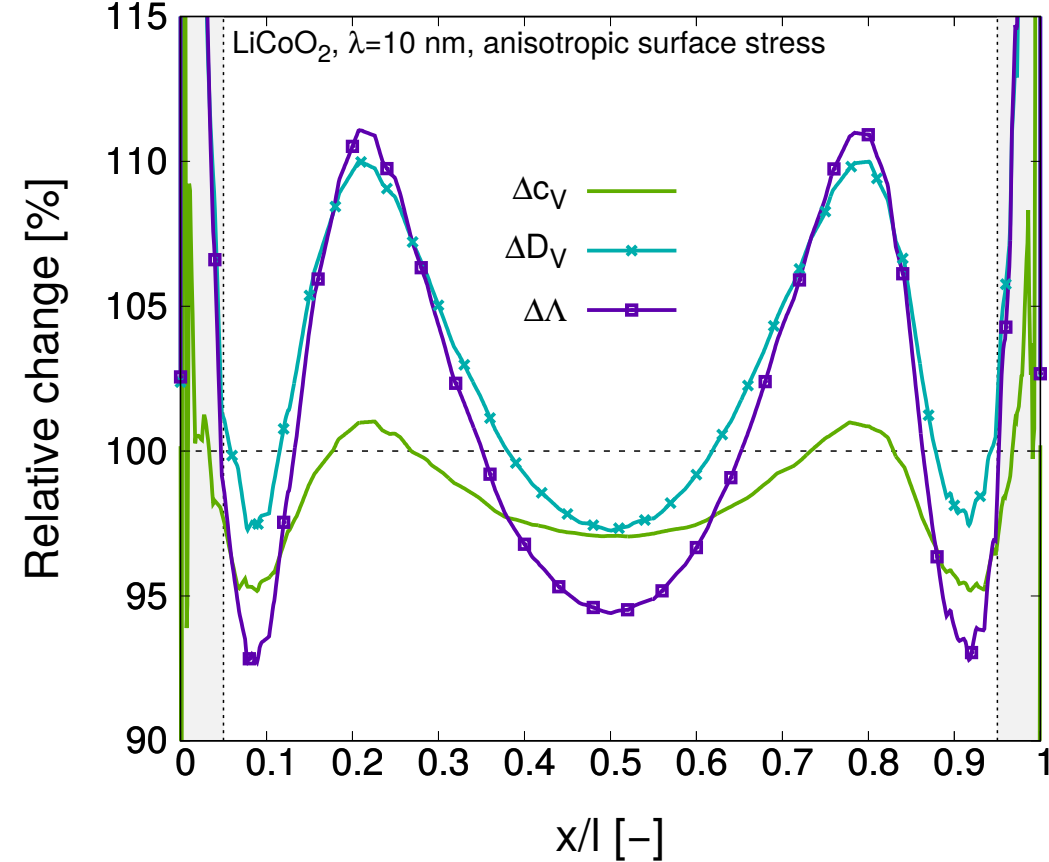

Received Date: 20 December 2017

Revised Date: 17 July 2018

Accepted Date: 19 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
