

Accepted Manuscript

A three-phase matheuristic for the Packaging and Shipping Problem

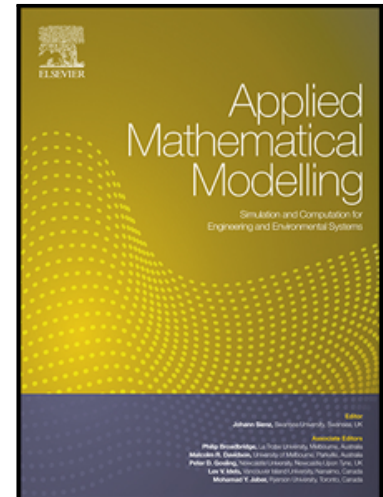

Diego Cattaruzza, Luce Brotcorne, Frédéric Semet, Bayrem Tounsi

PII: S0307-904X(18)30357-3
DOI: <https://doi.org/10.1016/j.apm.2018.07.041>
Reference: APM 12394

To appear in: *Applied Mathematical Modelling*

Received date: 12 May 2017
Revised date: 6 July 2018
Accepted date: 24 July 2018

Please cite this article as: Diego Cattaruzza, Luce Brotcorne, Frédéric Semet, Bayrem Tounsi, A three-phase matheuristic for the Packaging and Shipping Problem, *Applied Mathematical Modelling* (2018), doi: <https://doi.org/10.1016/j.apm.2018.07.041>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Introduction and modeling of the Packaging and Shipping Problem motivated by a real-life e-commerce application
- Design of a three-phase matheuristic to efficiently tackle the Packaging and Shipping Problem
- Computational comparison with a state-of-the art commercial solver
