

## Author's Accepted Manuscript

Optimization, kinetic and bioprocess parameters of amylases production from *Coprinus comatus* under submerged culture using starch-based simple medium: Partial enzyme characterization

Luana Cristina Paludo, Suélen Caroline Frantz, Reinaldo Ançay Junior, Herta Stutz, Tirzhá Lins Porto Dantas, Michele Rigon Spier

PII: S1878-8181(18)30185-3  
DOI: <https://doi.org/10.1016/j.bcab.2018.09.022>  
Reference: BCAB879

To appear in: *Biocatalysis and Agricultural Biotechnology*

Received date: 23 February 2018  
Revised date: 18 August 2018  
Accepted date: 24 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
