

## Accepted Manuscript

Probe the micro arc softening phenomenon with pulse transient analysis in plasma electrolytic oxidation

Dah-Shyang Tsai, Guan-Wei Chen, Chen-Chia Chou

PII: S0257-8972(18)31075-2  
DOI: [doi:10.1016/j.surfcoat.2018.09.080](https://doi.org/10.1016/j.surfcoat.2018.09.080)  
Reference: SCT 23854  
To appear in: *Surface & Coatings Technology*  
Received date: 1 June 2018  
Revised date: 27 September 2018  
Accepted date: 28 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Probe the micro arc softening phenomenon with pulse transient analysis in plasma electrolytic oxidation
