

Accepted Manuscript

Assessment of long-term impact of storm surges around the Korean Peninsula based on a large ensemble of climate projections

Jung-A. Yang, Sooyoul Kim, Nobuhito Mori, Hajime Mase

PII: S0378-3839(17)30656-7
DOI: 10.1016/j.coastaleng.2018.09.008
Reference: CENG 3428
To appear in: *Coastal Engineering*
Received Date: 27 November 2017
Accepted Date: 29 September 2018

Please cite this article as: Jung-A. Yang, Sooyoul Kim, Nobuhito Mori, Hajime Mase, Assessment of long-term impact of storm surges around the Korean Peninsula based on a large ensemble of climate projections, *Coastal Engineering* (2018), doi: 10.1016/j.coastaleng.2018.09.008

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Assessment of long-term impact of storm surges around the Korean Peninsula based on**
2 **a large ensemble of climate projections**
