Modeling solute reactivity in a phreatic solution conduit penetrating a karst aquifer

Malcolm S. Field, William E. Schiesser

PII: S0169-7722(18)30213-4
DOI: [doi:10.1016/j.jconhyd.2018.09.002](https://doi.org/10.1016/j.jconhyd.2018.09.002)
Reference: CONHYD 3422
To appear in: *Journal of Contaminant Hydrology*
Received date: 12 July 2018
Revised date: 6 September 2018
Accepted date: 18 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Modeling Solute Reactivity in a Phreatic Solution Conduit Penetrating a Karst Aquifer
