Prevalence of pathogenic *Arcobacter* species in South Korea: Comparison of two protocols for isolating the bacteria from foods and examination of nine putative virulence genes

Nam Hee Kim, Sun Min Park, Hye Won Kim, Tae Jin Cho, Soon Han Kim, Changsun Choi, Min Suk Rhee

PII: S0740-0020(18)30347-2

DOI: [10.1016/j.fm.2018.09.008](https://doi.org/10.1016/j.fm.2018.09.008)

Reference: YFMIC 3080

To appear in: *Food Microbiology*

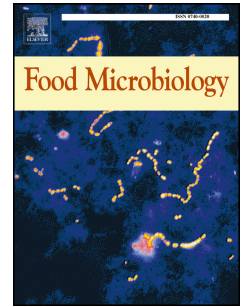

Received Date: 18 April 2018

Revised Date: 7 September 2018

Accepted Date: 7 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Short title: Presence of virulent *Arcobacter* in various foods

2
3 **Prevalence of pathogenic *Arcobacter* species in South Korea: comparison of two**
4 **protocols for isolating the bacteria from foods and examination of nine putative**
5 **virulence genes**
