Contact force between the tibial spine and medial femoral condyle: A biomechanical study

Keith L. Markolf, Peter Z. Du, David R. McAllister

PII: S0268-0033(18)30391-7
DOI: doi:[10.1016/j.clinbiomech.2018.09.025](https://doi.org/10.1016/j.clinbiomech.2018.09.025)
Reference: JCLB 4614
To appear in: *Clinical Biomechanics*
Received date: 3 May 2018
Accepted date: 26 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Contact Force Between the Tibial Spine and Medial Femoral Condyle: A
Biomechanical Study**

Keith L. Markolf^{1*} Ph.D., Peter Z. Du² M.D., David R. McAllister¹ M.D.

Investigation performed at the David Geffen School of Medicine at UCLA, Los Angeles, California, USA
