This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title of the paper:

Omalizumab chronic spontaneous urticaria: efficacy, safety, predictors of treatment outcome and time to response

Omalizumab in patients with chronic spontaneous urticaria: an Italian multicentric real life study

Manuscript word count: 2227

Table count: 5

Authors: E. Nettis, MD¹, L. Cegolon, MD, PhD, MSc², E. Di Leo, MD, PhD³, F. Lodi Rizzini, MD, PhD⁴, A. Detoraki, MD, PhD⁵, W. G. Canonica, MD⁶, on behalf of the Italian OCUREL study group⁷
