

## Accepted Manuscript

Stable cavitation using acoustic phase-change dodecafluoropentane nanoparticles for coronary micro-circulation thrombolysis

Bo Hu, Nan Jiang, Qing Zhou, Sheng Cao, Shunji Gao, Binghong Zhang, Jinling Chen, Ruiqiang Guo

PII: S0167-5273(18)30443-1  
DOI: doi:[10.1016/j.ijcard.2018.06.027](https://doi.org/10.1016/j.ijcard.2018.06.027)  
Reference: IJCA 26576  
To appear in: *International Journal of Cardiology*  
Received date: 19 January 2018  
Revised date: 20 April 2018  
Accepted date: 6 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title Page****Stable cavitation using acoustic phase-change dodecafluoropentane nanoparticles for coronary micro-circulation thrombolysis**

Bo Hu<sup>a</sup>, Nan Jiang<sup>a</sup>, Qing Zhou<sup>a</sup>, Sheng Cao<sup>a</sup>, Shunji Gao<sup>b</sup>, Binghong Zhang<sup>c</sup>, Jinling Chen<sup>a\*</sup>,  
Ruiqiang Guo<sup>a</sup>

a. Echo lab, Department of Ultrasound Imaging, Renmin Hospital of Wuhan University, Wuhan 430060, China.

b. Department of Ultrasound Imaging, Xinqiao Hospital, Third Military Medical University, Chongqing 400037, China.

c. Department of Pediatrics, Renmin Hospital of Wuhan University, Wuhan 430060, China.

Bo Hu and Nan Jiang have equally contributed to this work as first authors.

All the authors take responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation.

**\*Corresponding author:** Jinling Chen

**E-mail:** jinlingchen.wh.edu@hotmail.com

**Telephone number:** 00-86-13971666272

**Address:** 238# Jiefang Road, Department of Ultrasound Imaging, Renmin Hospital of Wuhan University, Wuhan 430060, Hubei, P.R. China.

**Conflict of interest:** The authors report no relationships that could be construed as a conflict of interest.

**Key words:** Coronary micro-circulation thrombolysis; Stable cavitation; Nanoparticle; Ultrasound irradiation.

**Grant supporting this paper:** This work was supported by National Natural Science Foundation of China (Grant Numbers: 81501495 and 81471674) and Special Grant for Scientific and Technological Development Conducted by The Central Government of China in 2016: Quality Test and Operation with Anesthesia Center of Experimental Animal of Hubei Province (Grant Number: 2060403).
