This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Rev version 26 June 2018

**Antihypertensive drugs and relevant cardiovascular
pharmacotherapies and the risk of incident dementia in patients
with atrial fibrillation**

Running title: Pharmacotherapies and risk of dementia in atrial fibrillation

Per Wändell*,¹ Axel C Carlsson,^{1,2} Jan Sundquist,^{3,4,5} and Kristina Sundquist^{3,4,5}
