High degradation and no bioavailability of artichoke miRNAs assessed using an in vitro digestion/Caco-2 cell model

Aldo Cavallini, Fiorenza Minervini, Antonella Garbetta, Catia Lippolis, Gaetano Scamarcio, Cinzia Di Franco, Rosalba D'Alessandro

PII: S0271-5317(18)30203-3
DOI: doi:[10.1016/j.nutres.2018.08.007](https://doi.org/10.1016/j.nutres.2018.08.007)
Reference: NTR 7935

To appear in: *Nutrition Research*

Received date: 14 February 2018
Revised date: 22 August 2018
Accepted date: 31 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

High degradation and no bioavailability of artichoke miRNAs assessed using an *in vitro* digestion/Caco-2 cell model
