

## Accepted Manuscript

Combined delivery of angiopoietin-1 gene and simvastatin mediated by anti-intercellular adhesion molecule-1 antibody-conjugated ternary nanoparticles for acute lung injury therapy

Saiping Jiang, Shujuan Li, Jingbo Hu, Xiaoling Xu, Xiaojuan Wang, Xuqi Kang, Jing Qi, Xiaoyang Lu, Jiahui Wu, Yongzhong Du, Yonghong Xiao

PII: S1549-9634(18)30513-6  
DOI: doi:[10.1016/j.nano.2018.08.009](https://doi.org/10.1016/j.nano.2018.08.009)  
Reference: NANO 1860

To appear in: *Nanomedicine: Nanotechnology, Biology, and Medicine*

Received date: 6 May 2018  
Revised date: 10 July 2018  
Accepted date: 19 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Combined delivery of angiotensin-1 gene and simvastatin mediated by anti-intercellular adhesion molecule-1 antibody-conjugated ternary nanoparticles for acute lung injury therapy**
