

## Accepted Manuscript

A novel photoelectrochemical immunosensor for prion protein based on CdTe quantum dots and glucose oxidase

Yanmei Li, Leixia Meng, Kang Zou, Xiaohua Zhang, Jinhua Chen

PII: S1572-6657(18)30648-9  
DOI: doi:[10.1016/j.jelechem.2018.09.045](https://doi.org/10.1016/j.jelechem.2018.09.045)  
Reference: JEAC 12628  
To appear in: *Journal of Electroanalytical Chemistry*  
Received date: 9 August 2018  
Revised date: 24 September 2018  
Accepted date: 24 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A novel photoelectrochemical immunosensor for prion protein based on CdTe quantum dots and glucose oxidase**
