Recovery of failing hearts by mechanical unloading:
Pathophysiologic insights and clinical relevance

Michael Dandel, Roland Hetzer

PII: S0002-8703(18)30273-4
DOI: doi:[10.1016/j.ahj.2018.09.004](https://doi.org/10.1016/j.ahj.2018.09.004)
Reference: YMHJ 5775
To appear in: *American Heart Journal*
Received date: 23 December 2017
Accepted date: 8 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Recovery of Failing Hearts by Mechanical Unloading: Pathophysiologic Insights and Clinical Relevance

Short title: Ventricular Assist Devices for Recovery of Failing Hearts

Michael Dandel MD, PhD^{1,2}, Roland Hetzer, MD, PhD^{2,3}

¹German Centre for Heart and Circulatory Research (DZHK), Partner site Berlin, Germany
