Metal Chloride Anion-based Ionic Liquids for Efficient Separation of NH_3

Junli Wang, Shaojuan Zeng, Feng Huo, Dawei Shang, Hongyan He, Lu Bai,
Xiangping Zhang, Jianwei Li

PII: S0959-6526(18)32925-1
DOI: 10.1016/j.jclepro.2018.09.192
Reference: JCLP 14327
To appear in: *Journal of Cleaner Production*
Received Date: 07 June 2018
Accepted Date: 23 September 2018

Please cite this article as: Junli Wang, Shaojuan Zeng, Feng Huo, Dawei Shang, Hongyan He, Lu Bai, Xiangping Zhang, Jianwei Li, Metal Chloride Anion-based Ionic Liquids for Efficient Separation of NH_3 , *Journal of Cleaner Production* (2018), doi: 10.1016/j.jclepro.2018.09.192

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Metal Chloride Anion-based Ionic Liquids for Efficient Separation of NH₃

Author names and affiliations:

Junli Wang, Beijing Key Laboratory of ionic liquids Clean Process, State Key Laboratory of Multiphase Complex Systems, Institute of Process Engineering, Chinese Academy of Sciences, Beijing, 100190, China; State Key Laboratory of Chemical Resource Engineering, Beijing University of Chemical Technology, Beijing, 100029, China; 1481464872@qq.com;
