

## Accepted Manuscript

Pentamethinium Salts as Ligands for Cancer: Sulfated Polysaccharide Co-receptors as Possible Therapeutic Target

Tomáš Bříza, Jarmila Králová, Silvie Rimpelová, Martin Havlík, Robert Kaplánek, Zdeněk Kejík, Pavel Martásek, Ivan Mikula, Petr Džubák, Marián Hajdúch, Tomáš Ruml, Vladimír Král

PII: S0045-2068(17)30693-4  
DOI: <https://doi.org/10.1016/j.bioorg.2018.02.011>  
Reference: YBIOO 2271

To appear in: *Bioorganic Chemistry*

Received Date: 7 September 2017  
Revised Date: 2 February 2018  
Accepted Date: 10 February 2018

Král, Pentamethinium Salts as Ligands for Cancer: Sulfated Polysaccharide Co-receptors as Possible Therapeutic Target, *Bioorganic Chemistry* (2018), doi: <https://doi.org/10.1016/j.bioorg.2018.02.011>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
