Differences in the colloid properties of sodium alginate and polysaccharides in extracellular polymeric substances with regard to membrane fouling

Jian-Kai Jiang, Yang Mu, Han-Qing Yu

PII: S0021-9797(18)31190-1
DOI: <https://doi.org/10.1016/j.jcis.2018.10.002>
Reference: YJCIS 24157

To appear in: *Journal of Colloid and Interface Science*

Received Date: 25 July 2018
Revised Date: 13 September 2018
Accepted Date: 2 October 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Differences in the colloid properties of sodium alginate and polysaccharides in
extracellular polymeric substances with regard to membrane fouling**
