Solution-processed barium hydroxide modified boron-doped ZnO bilayer electron transporting materials: Toward stable perovskite solar cells with high efficiency of over 20.5%

Faisal Rehman, Khalid Mahmood, Arshi Khalid, Muhammad Shahzad Zafar, Madsar Hameed

PII: S0021-9797(18)31199-8
DOI: <https://doi.org/10.1016/j.jcis.2018.10.011>
Reference: YJCIS 24166

To appear in: *Journal of Colloid and Interface Science*

Received Date: 3 August 2018
Revised Date: 29 September 2018
Accepted Date: 5 October 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Solution-processed barium hydroxide modified boron-doped ZnO bilayer electron transporting materials: Toward stable perovskite solar cells with high efficiency of over 20.5%
