To appear in: *Expert Systems With Applications*

Received date: 1 September 2017  
Revised date: 4 August 2018  
Accepted date: 26 August 2018

Please cite this article as: Vijay Kumar Bohat, K.V. Arya, A new heuristic for multilevel thresholding of images, *Expert Systems With Applications* (2018), doi: <https://doi.org/10.1016/j.eswa.2018.08.045>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- A novel heuristic for multilevel thresholding problem is presented.
- It obtains better mean objective-value for Otsus criterion.
- It reduces the computational time of the employer nature inspired algorithm.
