

## Accepted Manuscript

Role of Mcl-1 in regulation of cell death in human induced pluripotent stem cell-derived cardiomyocytes in vitro

Liang Guo, Sandy Eldridge, Michael Furniss, Jodie Mussio, Myrtle Davis

PII: S0041-008X(18)30447-2  
DOI: doi:[10.1016/j.taap.2018.09.041](https://doi.org/10.1016/j.taap.2018.09.041)  
Reference: YTAAP 14420  
To appear in: *Toxicology and Applied Pharmacology*  
Received date: 3 June 2018  
Revised date: 13 September 2018  
Accepted date: 26 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Role of Mcl-1 in regulation of cell death in human induced pluripotent stem cell-derived  
cardiomyocytes *in vitro***
