Modulation of Associative Learning in the Hippocampal-Striatal Circuit Based on Item-Set Similarity

Shauna M. Stark, Amy Frithsen, Aaron T. Mattfeld, Craig E.L. Stark

PII: S0010-9452(18)30287-9

DOI: [10.1016/j.cortex.2018.08.035](https://doi.org/10.1016/j.cortex.2018.08.035)

Reference: CORTEX 2407

To appear in: *Cortex*

Received Date: 9 March 2018

Revised Date: 25 May 2018

Accepted Date: 29 August 2018

Please cite this article as: Stark SM, Frithsen A, Mattfeld AT, Stark CEL, Modulation of Associative Learning in the Hippocampal-Striatal Circuit Based on Item-Set Similarity, *CORTEX* (2018), doi: <https://doi.org/10.1016/j.cortex.2018.08.035>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Submission for CORTEX****Modulation of Associative Learning in the Hippocampal-Striatal Circuit****Based on Item-Set Similarity**

**Running Head:** HIPPO-STR ASSOC LEARNING

**Manuscript information:** 39 Pages, including 4 Figures

**Key Words:** hippocampus; striatum; paired associates; reward learning

**Acknowledgements:** This research was supported in part by a grant from the National Institutes of Mental Health: R01 MH085828. We thank Samantha Rutledge for assistance in data collection and Simona Nikolova for help with data processing. Declarations of interest: none.
