Prediction of separation performance of hydrocyclones by a PC-based model

Li Ji, Jiang Chen, Shibo Kuang, Zheng Qi, Kaiwei Chu, Aibing Yu

PII: S1383-5866(18)32503-6
DOI: <https://doi.org/10.1016/j.seppur.2018.09.073>
Reference: SEPPUR 14971

To appear in: *Separation and Purification Technology*

Received Date: 20 July 2018
Revised Date: 20 September 2018
Accepted Date: 25 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Prediction of separation performance of hydrocyclones by a PC-based model

Li Ji, Jiang Chen, Shibo Kuang^{*}, Zheng Qi, Kaiwei Chu and Aibing Yu^{*}
