

## Accepted Manuscript

Impact of a high hydrostatic pressure pretreatment on the separation of bioactive peptides from flaxseed protein hydrolysates by electro dialysis with ultrafiltration membranes

Gina Cecile Urbain Marie, Véronique Perreault, Loïc Henaux, Valérie Carnovale, Rotimi Aluko, André Marette, Alain Doyen, Laurent Bazinet

PII: S1383-5866(18)32937-X  
DOI: <https://doi.org/10.1016/j.seppur.2018.09.063>  
Reference: SEPPUR 14961

To appear in: *Separation and Purification Technology*

Received Date: 24 August 2018  
Revised Date: 20 September 2018  
Accepted Date: 21 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
