

## Accepted Manuscript

Low Rank Tensor Completion for Multiway Visual Data

Zhen Long, Yipeng Liu, Longxi Chen, Ce Zhu

PII: S0165-1684(18)30323-2  
DOI: <https://doi.org/10.1016/j.sigpro.2018.09.039>  
Reference: SIGPRO 6950

To appear in: *Signal Processing*

Received date: 6 May 2018  
Revised date: 29 August 2018  
Accepted date: 29 September 2018

Please cite this article as: Zhen Long, Yipeng Liu, Longxi Chen, Ce Zhu, Low Rank Tensor Completion for Multiway Visual Data, *Signal Processing* (2018), doi: <https://doi.org/10.1016/j.sigpro.2018.09.039>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Review the recent advances in low rank tensor completion for multiway visual data.
- Analyze the optimization solutions for the typical algorithms.
- Give the experimental comparison for the typical algorithms.
- Discuss the pros and cons about different low rank tensor completion methods.
