The aqueous deposition of a pH sensitive quinone on carbon paste electrodes using linear sweep voltammetry

Karen M. Herdman, Carmel B. Breslin, Niall J. Finnerty

PII: S1572-6657(18)30652-0
DOI: doi:[10.1016/j.jelechem.2018.09.049](https://doi.org/10.1016/j.jelechem.2018.09.049)
Reference: JEAC 12632

To appear in: *Journal of Electroanalytical Chemistry*

Received date: 14 August 2018
Revised date: 25 September 2018
Accepted date: 25 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The Aqueous Deposition of a pH Sensitive Quinone on Carbon Paste Electrodes using Linear Sweep Voltammetry

Karen M. Herdman, Carmel B. Breslin and Niall J. Finnerty*

Chemistry Department, Maynooth University, Co. Kildare, Ireland.
