Hindered methane decomposition on a coke-resistant Ni-In/SiO₂ dry reforming catalyst

Miklós Németh, György Sáfrán, Anita Horváth, Ferenc Somodi

PII: S1566-7367(18)30536-3
DOI: doi:[10.1016/j.catcom.2018.10.003](https://doi.org/10.1016/j.catcom.2018.10.003)
Reference: CATCOM 5514
To appear in: *Catalysis Communications*
Received date: 22 June 2018
Revised date: 24 September 2018
Accepted date: 2 October 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Hindered methane decomposition on a coke-resistant Ni-In/SiO₂ dry reforming catalyst
