

## Accepted Manuscript

Title: Micro-structured Fluorescent Powders for Detecting Latent Fingerprints on Different Types of Surfaces

Authors: Hélio L. Barros, Valter Stefani

PII: S1010-6030(18)30949-3  
DOI: <https://doi.org/10.1016/j.jphotochem.2018.09.046>  
Reference: JPC 11511

To appear in: *Journal of Photochemistry and Photobiology A: Chemistry*

Received date: 7-7-2018  
Revised date: 22-9-2018  
Accepted date: 25-9-2018

Please cite this article as: Barros HL, Stefani V, Micro-structured Fluorescent Powders for Detecting Latent Fingerprints on Different Types of Surfaces, *Journal of Photochemistry and Photobiology, A: Chemistry* (2018), <https://doi.org/10.1016/j.jphotochem.2018.09.046>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Micro-structured Fluorescent Powders for Detecting Latent Fingerprints on Different Types of Surfaces
