RAPD-PCR characterisation of two *Enterococcus lactis* strains and their potential on *Listeria monocytogenes* growth behaviour in stored chicken breast meats: Generalised linear mixed-effects approaches

Olfa Ben Braïek, Slim Smaoui, Karim Ennouri, Stefano Morandi, Paola Cremonesi, Khaled Hani, Taoufik Ghrairi

PII: S0023-6438(18)30785-0

DOI: [10.1016/j.lwt.2018.09.053](https://doi.org/10.1016/j.lwt.2018.09.053)

Reference: YFSTL 7433

To appear in: *LWT - Food Science and Technology*

Received Date: 6 May 2018

Revised Date: 18 September 2018

Accepted Date: 19 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
