Designing biochar properties through the blending of biomass feedstock with metals:
Impact on oxyanions adsorption behavior

Alba Dieguez-Alonso, Andrés Anca-Couce, Vladimír Frišták, Eduardo Moreno-Jiménez, Markus Bacher, Thomas Bucheli, Giulia Cimò, Pellegrino Conte, Nikolas Hagemann, Andreas Haller, Isabel Hilber, Olivier Husson, Claudia I. Kammann, Norbert Kienzl, Jens Leifeld, Thomas Rosenau, Gerhard Soja, Hans-Peter Schmidt

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Designing biochar properties through the blending of biomass feedstock with metals: impact on oxyanions adsorption behavior
