Organic contaminated sediments remediation with active caps: Nonlinear adsorption unveiled by combined isotherm and column transportation studies

Yin Ke, Priscilla Z. Viana, Karl J. Rockne

PII: S0045-6535(18)31778-8

DOI: [10.1016/j.chemosphere.2018.09.122](https://doi.org/10.1016/j.chemosphere.2018.09.122)

Reference: CHEM 22202

To appear in: *ECSN*

Received Date: 30 June 2018

Revised Date: 3 September 2018

Accepted Date: 18 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Organic contaminated sediments remediation with active caps: nonlinear adsorption unveiled by  
2 combined isotherm and column transportation studies
