**Running head:** Portion size normality and intended food consumption

**Funding and conflicts of interest:** This research was supported by a NIRG awarded by the Medical Research Council (MRC) to ER (MR/N00218/1). ER's salary is supported by the MRC and the Economic and Social Research Council. ER and JCGH has also received research funding from the American Beverage Association and Unilever. CAH has received research funding from the American Beverage Association and speaker's fees from the International Sweeteners Association.

**Data sharing:** Datasets are available at <https://osf.io/wvxxg5/>
