Accepted Manuscript

Oxytocin differentially modulates specific dorsal and ventral striatal functional connections with frontal and cerebellar regions

Zhiying Zhao, Xiaole Ma, Yayuan Geng, Weihua Zhao, Feng Zhou, Jiaojan Wang, Sebastian Markett, Bharat B. Biswal, Yina Ma, Keith M. Kendrick, Benjamin Becker

PII: \$1053-8119(18)31939-6

DOI: 10.1016/j.neuroimage.2018.09.067

Reference: YNIMG 15303

To appear in: Neurolmage

Received Date: 31 December 2017

Revised Date: 30 July 2018

Accepted Date: 24 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Oxytocin differentially modulates specific dorsal and ventral striatal functional connections with frontal and cerebellar regions

Running title: Oxytocin differentially modulates basal ganglia connectivity
