Automated quality control for within and between studies diffusion MRI data using a non-parametric framework for movement and distortion correction

Matteo Bastiani, Michiel Cottaar, Sean P. Fitzgibbon, Sana Suri, Fidel Alfaro-Almagro, Stamatios N. Sotiropoulos, Saad Jbabdi, Jesper Andersson

PII: S1053-8119(18)31945-1

DOI: [10.1016/j.neuroimage.2018.09.073](https://doi.org/10.1016/j.neuroimage.2018.09.073)

Reference: YNIMG 15309

To appear in: *NeuroImage*

Received Date: 15 May 2018

Revised Date: 21 September 2018

Accepted Date: 25 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Automated quality control for within and between studies diffusion MRI data using a non-parametric framework for movement and distortion correction

Authors:
